Plastic Surgery & Cosmetic Laser Center

David M. Whiteman, M.D., F.R.C.S.(c)

Se Habla Español

As a full-service center for personalized cosmetic treatments, Laser Lights Plastic Surgery & Cosmetic Laser Center provides advanced medical laser technology suitable for all skin types. In addition to laser services, we provide many other treatments to eliminate existing skin conditions & rejuvenate skin at any age. We offer complimentary consultations, customized packages to meet all your health & beauty needs, & a referral program for you to earn points towards your next service!

Vein Elimination

Our safe and comfortable laser vein removal technology provides immediate results without lifestyle interruptions. Our equipment treats both spider veins and larger blue reticular veins on the face and legs.

Spot Removal

Our laser technology can permanently remove pigments of freckles, brown spots, red spots, and more in just 1-2 treatments.

Ask about our renewing private label skin care products!

Tattoo Removal

If you're tired of your tattoo, our FDA-approved laser technology for permanent tattoo removal is effective for all colors and skin types, achieving results in fewer treatments than older lasers required.

Birthmarks, Moles, & Skin Tag Removal

Remove or soften the look of birthmarks, moles, or skin tags with laser & curettage removal. Some concerns may be resolved in one session, while others will require multiple appointments.

Facial Rejuvenation

Erase years off your skin. Fractioned CO2 laser treatment tightens skin, improves collagen production, & evens surface tones, while erbium laser resurfacing addresses more minor, superficial issues. For a lighter treatment, our micro laser peels offer natural-looking improvement with a shorter recovery period.

Rosacea & Facial Redness Treatment

Our lasers target the troublesome blood vessels which cause stubborn facial redness & other rosacea symptoms for long-lasting relief.

Chemical Peels

Get rid of years of sun damage, fine wrinkles, & age spots with peels! We offer Vi Peels™, TCA peels, Jessner's peels, & PCA Peels® for face & body. Our licensed estheticians will recommend which peel is best for your skin type & desired results while guiding you with your daily skin care.

Acne Treatment

Our experienced & licensed aestheticians can recommend the ideal acne treatments and products for your unique needs.

Facial Injectables & Fillers

Muscle relaxing dermal injectables & facial fillers are proven to reduce & prevent signs of aging. We offer Botox®, Restylane®, Juvéderm® and more.

Silk® Microdermabrasion

This new take on microdermabrasion restores vitality, removes dead skin cells, reduces acne & evens skin tone with no downtime. Unique topical medications are tailored to your needs for enhanced results.

Lymphatic Drainage Massage

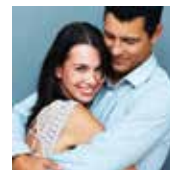

Help your body get rid of cellular waste to boost your immune system and reduce post-surgical swelling.

Facials

Whether your priorities include acne treatment, anti-aging, or simply refreshing your complexion, our facials are tailored to you.

Laser Hair Removal

Eliminate the need for time-wasting hair removal methods by permanently removing hair in nearly any area. No more shaving, razor burn, or bumps!

You can afford to revitalize your beauty. Ask about our financing options and payment plans!

Photo Rejuvenation

Fight back against sun damage, fine lines, wrinkles, and age spots with our non-ablative laser treatments for the face and body.

Wart Removal

Our lasers can clear away most non-genital warts on the hands, feet, and other areas.

Rejuvapen® Microneedling

Ultrafine needles help your body produce more natural collagen to firm the skin, reduce scars from surgery, acne, or injuries, and offer a more youthful complexion.

For all of
life's special
celebrations, our gift
certificates make a
perfectly tailored
present.

other special packages!

SculpSure™ Fat Reduction

Target areas of stubborn fat on the abdomen, flanks, and more with no downtime and no surgery using the most advanced non-surgical fat reducing technology available.

Skin Tightening & Cellulite Reduction

Don't put up with loose skin and cellulite! Viora® Reaction™ non-surgical treatment uses multi-frequency & vacuum technologies for a more youthful & refined figure.

Latisse® Eyelash Enhancement

Help your lashes grow longer, fuller, and darker with a topical prescription you can simply add to your nightly routine.

Plastic Surgery

Our cosmetic services are overseen by double board-certified plastic surgeon Dr. David M. Whiteman, who offers a wide variety of plastic surgery services at Southern Plastic Surgery, PC.

Health & Wellness

Certified NESTA Weight Management Specialist Jackie Madison can guide you toward weight loss or other fitness goals by helping you plan and live a healthier lifestyle.

Platelet-Rich Plasma

Use your body's own natural growth factors, found in a specific part of your blood, to rejuvenate and revitalize your skin.

EcoTan® Airbrush Tanning

Enjoy a sun-kissed, bronze look without risking your skin's health. Our licensed aesthetician offers this safe and all-organic airbrush tan for a customized and natural-looking color.
